Ms. Jessica Fox,

The New Jersey Department of Environmental Protection(NJDEP) has not submitted to the EPA for review and approval the final New Jersey 2012 or 2014 Integrated Water Quality Monitoring and Assessment Reports (which includes 305(b) and 303(d) Lists.) Thus at this time, the EPA does not have the “digital copies of the approved 2012 and 2014 state water quality reports for the state of NJ.”

For information on NJDEP’s target dates for its submission of its Integrated Water Quality Monitoring and Assessment Reports to the EPA please contact the Bureau of Environmental Analysis, Restoration and Standards at (609) 633-1441. Please feel free to check back with me periodically.

Thanks,
Brent
